Unlock Treeton

Hi, I'm Cameron.

I became a Christian quite recently and because of this, it is allowing me to grow and improve constantly with our lord. Whilst growing up my family wasn't religious, so I never had a chance to experience going to church or having a chance to read the good word; because of this every step I take with God I know he's giving me a chance to be in his amazing family.

Throughout my childhood I struggled with my mental and physical health and because of it I thought I was alone, and which led me to believe that there couldn't be a God and if so that he is punishing me for something that I did. It was only recent that I found the loving warm embrace of the lord which opened my eyes and because of this allowed me to grow spiritually and as a better person

My interest with Treeton is not just its where I found God but where I found a second family within the village and the love and care that they have shown towards me. Especially whilst they guide me on my path of Christianity and not only being part of the church but a part of their family
