Bishop Peter Hall
writes:-

Recently 18 EUTP people met in Sheffield - staff, trainers and National Council members. It was EUTP, confident and encouraged in its new shape and in its long tested methods.

This walk takes us through just the kind of places and churches to which our trainers themselves belong.

It so happens that the whole walk is in my own "patch", and is very familiar to me and my wife. She has drawn the map this year.

With your help, EUTP works alongside Christians in churches like those you will see on the walk.

I value your support in praying, in walking and in getting sponsored so that EUTP can go on.

Peter Hall

"PECKHAM - DEPTFORD" AND OLD SURREY DOCKS"

Peter and Jill Hall write:

Dear Walkers,

The 1995 Walk Route is a special choice of ours, being well known to us.

It goes through some of the hardest, yet most excitingly cosmopolitan places to live in SE London: Peckham, New Cross and Deptford.

Once again we have the waterfront, with its rich history and with present day luxury and poverty side by side.

The route touches some very active Anglican parishes, five of which are checkpoints. This is not quite our usual balance on checkpoints, but it reflects the area - although of course EUTP works with all denominations.

Have a good walk!

- Peter and Jill Hall
