

CHURCH
SECRETARIES,
MINISTERS PLEASE ADVISE
THIS WITH YOUR CHURCHES

Bishop Peter Hall writes -

As an urban bishop, EUTP is dear to my heart. It has built up one of the most imaginative adult teaching resources in the church, especially geared to areas where Christians are fewest and mission is the hardest. It works with all denominations and none. The work of Jim Hart - hundreds of courses with thousands of people - is continuing as we build up a network of voluntary trainers to offer specialised training in their home areas.

I value your friendship, prayers and giving more than ever as we enter a new stage of progress.

Q. M. V. Ash

A family group of EUTP walkers take a well-earned break on the "Regent's Canal" Walk in 1988

The "Dickens Shameside" Walk - April 1991 Reflections

Through Rain, sleet, hailstones and even snow,
We walked:

Through Dry, warm sunshine
With bright blue skies - **We walked:**

Through East London South of the Thames -

Through Quays, docks and wharves,
All beautifully redeveloped,
With super boats and super flats,
Costing thousands!!! - **We walked:**

Through Parks and lovely green areas
Even up a small hill - **We walked:**

On the train across the Thames,
The Northern Ring - To Walk:

Park of the marathon Route North and South

We walked:

Past broken down playgrounds,
Older flats and houses - and tower blocks;

Over pit-holed pavements - **We walked:**

Through Eight Churches, of all different
denominations, meeting people

All the time!! - **We walked:**

Nearly 1,500 Christians
Walked nearly 10 miles of London streets

And alley-ways;

Following a map - getting lost!

Two dogs and I with friends - **We walked!**

And enjoyed The Day!!

Our Ninth London Sponsored Walk

Saturday 2nd May 1992

Evangelical Urban Training Project

The Thames Flood Barrier: designed to prevent a flood even worse than that of 1923 and a visual and engineering triumph.

9 miles
(+ 1 1/2 mile option)

Start at any time after 9.00am

START AT ANY CHECKPOINT

GO IN EITHER DIRECTION!

CHECKPOINTS WILL BE OPEN FROM 9.00am - 6.00pm

THE UPSTAIRS-DOWNSTAIRS WALK

Urban Contrasts in Greenwich and Woolwich

Dear Christian Friends,

Nine years on, and EUTP's walks have become an annual delight - a celebration of Christian ministry and friendship, with up to 1,500 walkers. The 1992 route is spectacular.

DOWNSTAIRS on the Thames floodplain are up-stream-built council estates, gravel works and factories.

UPSTAIRS above the steep gravelly bluffs, are well-to-do communities, huge 17th century mansions and opulent Victorian villas. The fascinating route winds through famous parks, past the great Greenwich buildings and the Thames Barrier. There are vast vicus of the City and Canary Wharf.

Along the way you visit ministries of different denominations, meeting local Christians and sharing in their joys and difficulties.

It's all a great day out for you and your family! Yours sincerely,

Basil Cracknell

Basil Cracknell

National Maritime Museum - these Victorian buildings complement the centuries older work of Inigo Jones, Wren and Hawksmoor, in one of Europe's greatest assemblies of Royal Buildings.
